Story on EmPower Women data breach

Lafee, Scott <slafee@ucsd.edu>   Mon, May 13, 2019 at 5:22 PM
To: Jill Castellano <jillcastellano@inewsource.org>, "Carr, Jacqueline" <jcarr@ucsd.edu>

It was and is the position of UC San Diego that subject notifications should include and fully address the issue of return/destruction of study data. As a first step, in March 2019, the university prioritized the return/destruction of study data so that complete information regarding this matter could be included in subject notifications. It has not taken six weeks for UC San Diego to prepare notifications. It has taken more than six weeks for Christie's Place -- an independent third party -- to gather all the study data to be returned or destroyed. We expect Christie's response imminently.
